

AdaBD Online Seminar Series

Friday, 11:30 – ca. 12:15 via ZOOM

Feb 10 th	Molecular mechanisms of circuit wiring in the developing and adult brain Matteo Egger, Csaba Földy
Feb 17 th	The Electrophysiology core Facility at UZH David Penton Ribas
Mar 3 rd	Structural basis of mild developmental delay in the developing human brain connectome Anna Speckert, András Jakab
Mar 24 th	mesoSPIM project news and updates Nikita Vladimirov
Mar 31 st	Transcriptomic profiling of human hippocampal organoids Daniel Gonzalez, Sebastian Jessberger
Apr 14 th	Dendritic Integration in Neocortical Pyramidal Neurons Johanna Nieweler, Fritjof Helmchen
May 5 th	Brain network mechanisms of multisensory learning Ella Casimiro, Christian Ruff

May 12th	Investigating the role of the primary cilium in neural circuit development using zebrafish models for the ciliopathy Joubert Syndrome Alexandra Noble, Ruxandra Bachmann
May 26th	Preschool children with development delay in Zurich: targeted recruiting opportunities for research projects Marion Wenger, Michael von Rhein
NEW June 23th 10:30-12:30	Introduction to Open Access and Open Data Leonhard Held (Open Science Delegate UZH), Melanie Röthlisberger (University Library Zurich)
